DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 25, 2002 has been entered.

Claim Rejections - 35 USC § 112

2. Claims 2, 3 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 8, lines 8-11, the recitation "a distance from the pivot axis which is sufficient to allow a fiber optic cable to be engageable with the blunt surfaces when the cutting members move from the open position to the closed position on a fiber optic cable placed between the cutting members" renders the claims vague and indefinite since the invention is being positively defined in terms of the workpiece which is not part of the claimed invention.
